

JEONJ PAPER

Asia's leader in newsprint and publication paper

Jeonju Paper is the largest newspaper paper manufacturer in Korea and produces 900,000 tons of newsprint, publication paper, and industrial paper per year, and supplies to most newspapers in Korea as well as in major international markets. Throughout its 50 years of history, Jeonju Paper has served both and overseas customers with the highest quality newsprint.

As Asia's leading newsprint manufacturer, we will continue our excellence by drawing from decades of experience and from our state of the art manufacturing facilities that include the world's largest de-inked pulp facilities and Korea's only mechanical pulp lines.
